Electrical Room Brief

Describe household needs for professional design review.

Capture room uses and equipment assumptions for the electrical designer and installer without specifying technical wiring or protection.

Project and drawing revision	Room and household contact	Brief date / reviewer

CHECK / NOTE / ASK

- [ ] **Furniture and uses marked**
  Locations should respond to real household activity.
- [ ] **Known appliance details added**
  Share model data and flag items not yet selected.
- [ ] **Lighting tasks described**
  Help the designer plan useful, comfortable light.
- [ ] **Control habits recorded**
  Check convenient locations and manual operation.
- [ ] **Wet areas coordinated**
  Resolve fixture locations with bathroom plans.
- [ ] **Technical design assigned**
  Qualified professionals determine compliant installation.
- [ ] **Changes approved in writing**
  Keep site work aligned with the current design.
- [ ] **As-built records collected**
  Retain schedules, manuals and verification records.

Print this sheet or fill it in a PDF app. Keep observations separate from decisions.

Preparation worksheet; project-specific review still required.

Turn notes into next steps.

Use one row per decision or observation. Add a photo/drawing reference where useful.

Room / use	Equipment or lighting need	Designer response / status

AT YOUR NEXT MEETING

01 Which appliance details are still assumptions?

02 How will lighting controls work in daily use?

03 What final drawings and verification records are due?
