Wall Assembly Decision Matrix

Record wall roles, evidence and approvals before delivery.

Use one row per wall type to compare proposed units and capture design-team decisions before procurement or installation.

Project and drawing revision	Wall type and location	Reviewer and review date

CHECK / NOTE / ASK

- [ ] **Wall role identified**
  Structural or partition status must come from approved design.
- [ ] **Unit and standard recorded**
  Names alone do not confirm grade, dimensions or intended use.
- [ ] **Product evidence received**
  Keep data sheets and applicable conformity or test records.
- [ ] **Junctions and openings checked**
  Interfaces affect stability, finish and movement control.
- [ ] **Services coordinated**
  Resolve routes and access before the wall is closed.
- [ ] **Finish system agreed**
  Substrate and finish compatibility need project review.
- [ ] **Substitution approved**
  Design professional records acceptance and revised details.
- [ ] **Delivery and photos logged**
  Trace supplied units and concealed work by location.

Print this sheet or fill it in a PDF app. Keep observations separate from decisions.

Preparation worksheet; project-specific review still required.

Turn notes into next steps.

Use one row per decision or observation. Add a photo/drawing reference where useful.

Wall type/location	Proposed unit and evidence	Decision / owner

AT YOUR NEXT MEETING

01 Which current drawing defines this wall?

02 What exact product evidence is still missing?

03 Who will issue written approval for a substitute?
